PERSONAL PROJECTS

Data Analysis of Covid-19 Report

-Conducted an analysis of COVID-19 cases and vaccination data in India using **Python** and its **libraries**. This involved **data cleaning** and extracting key information from the dataset.
-All the information was represented in the form of **graphs** and **pie charts**.
-Additionally, performed a **global analysis** by creating an interactive dashboard using **Power BI**.

TourCraze

-Developed a website that helps tourists **explore different destinations**.
-Tourists can register, plan their trips, and manage their itineraries.
-Created a **community** section where users can **post reviews** about various places.
-Users can also **like** and **comment** on the reviews.
-Travel companies can add their popular tours and plans.
-Hotel and restaurant owners can **register** their establishments.
-Tech stack used: - **Frontend: HTML, CSS, JavaScript and Bootstrap**
- **Backend: Python and Django**

GTBIT-IJTIS

-Developed a website for **college journal**.
-Platform where students and teachers can upload their reserch papers.
-Editors can be added through an **admin panel and add editor page**, and their details are **displayed on a separate page**.
-Website includes a section to **display rules and regulations** for submitting research papers.
-**Admin panel** to manage the admistration and functionality of website.
-Website is hosted on domain **www.gtbijt.in**.
-Tech stack used: - **Frontend: HTML, CSS, JavaScript**
- **Backend: Python and Django**
- **Hosting Service: Render**

SKILLS

Full Stack Web development - HTML, CSS, BootStrap, JavaScript, PostgreSQL, Django, Python, UI & UX

Languages - C, C++, SQL & Python

Data Analysis - Data Visualization & PowerBI

Data Structures and Algorithms, Object Oriented Programming, Database and Management System & Operating System

Soft Skills - Public Speaking, Leadership & Team Work

ACHIVEMENTS

Special track in Make-it-Happen Ideathon

*Got special mentions for our **Agri-Tech** pitch. Secured **5th position** among 400+ registrations and over 1800 participants.*

Won 1st position in BBDITM Ideathon

*On account of IEEE Days BBDITM organized an **Ideathon** on topic rural development using modern techniques.*

POSITION OF RESPONSIBILITY

D'Lang Chaps - The Literary and Managerial Society

(2023-2024) Vice President

(2022-2023) Graphic Design Lead

(2021-2022) Member - Design Team

WORK EXPERIENCE

Amdocs

Project Trainee

3rd August 2023 - 29th September 2023

-Worked on project **OptiChat in optima department**.
-**OptiChat** is a web-based **chatbot** that uses **sequential model** of machine learning. The model can be trained adding **intents** and creating multiple **patterns** for these intents.
-The entire user interface was designed using **HTML, CSS, JavaScript.**
-**Django** framework was used for backend and **PostgreSQL** was used for data storage.
-Successfully **completed** the project and **deployed** the website on the company's server.
