Education

B.Tech (AI and Data Science)
Guru Gobind Singh Indraprastha University
Currently pursuing B.Tech in Data Science stream where I got to learn about Python Programming,Data Science Fundamentals and in depth knowledge in ML and AI

Skills

Hard Skills
- Python
- MySQL
- MS Excel
- Deep Learning
- Machine Learning
- Neural Networks

Soft Skills
- Communication
- Problem Solving Skills
- Collaboration
- Attention to Detail
- Adaptability
- Presentation Skills

Projects

Diwali Sales Analysis
Leveraged data analysis to uncover customer trends and product preferences during the Diwali sales season. Analyzed sales data to identify top-selling categories and improve customer experience.

Image Manipulation Tool
Developed a user-friendly image manipulation tool using Tkinter for the GUI and Pillow for image processing. Enables basic editing functions like resizing, cropping, and applying filters

Music Store Analysis using MySQL
This project extracts insights from a music store database. It addresses various analytical questions, determining top-spending customers, and analyzing popular music genre

Certificates

Simplilearn Data Science with Python
Learned various aspects of data science, including data manipulation, visualization, machine learning, and more

Python Course in Depth
Got to learn fundamentals of Python programming, from variables and data types to loops, functions, and beyond.

Organizations

DLC
Social Media Lead
I managed engaging online campaigns, managed content calendars, and fostered a vibrant digital community.

Swaas
Content Lead
As the content lead in my college society, I curated captivating articles, designed engaging visuals, and collaborated with talented creators.
