EDUCATION

Guru Tegh Bahadur Institute of Technology, GGSIPU, New Delhi, India *2021 – 2025*
Bachelors of Technology in Artificial Intelligence and Machine Learning *CGPA: 8.47*

CBSE (Class XII) *2019 – 2020*
Govt Sarvodaya Co-Ed Senior Secondary School, New Delhi *Percentage: 82.5*

CBSE (Class X) *2017 – 2018*
M.S.D Sanjeevani Public School, New Delhi *Percentage: 83.6*

EXPERIENCE

Machine Learning Intern: (JM tech) *June'24 – July'24(Remote)*

- Developed and integrated a conversational **AI system** with **SQL databases** (Chat with SQL) to enable dynamic querying and real-time data retrieval.
- **Implemented natural language** interfaces, allowing users to interact with databases seamlessly using everyday language.
- Enhanced **user accessibility** and efficiency by bridging AI capabilities with database management for automated insights.

PROJECT

Cohort Analysis and Customer Segmentation

- Performed **Cohort analysis** and developed an automated **dashboard** to track retention, behavior, and segmentation insights, driving targeted strategies and boosting customer lifetime value.
- Developed an **RFM** (Recency, Frequency, Monetary) clustering model using **K-means** to identify 4 distinct customer segments, enabling personalized marketing campaigns that **increased conversion rates by 30%.**

Credit Card Financial Dashboard using Power BI

- **Developed** an **interactive dashboard** using transaction and customer data from a SQL database, to provide real-time insights.
- Learning to use **DAX** for data analysis and creating various visualizations to communicate effectively and **increase productivity by 20%**.
- **Streamlined** data processing & analysis to monitor key performance metrics and trends.

YouTube Video Classification

- Built a Machine learning model and using **NLP** to classify **YouTube videos** into **predefined categories** using metadata and content analysis.
- Processed titles & descriptions, to extract features, improving classification accuracy and efficiency.
- Objective is to automate video categorization, streamlining content organization and **enhancing the user experience**.

TECHNICAL SKILLS

Languages and Libraries : Python, Java, MySQL,Pandas, Keras, NumPy, NLP, Sckit-learn, Matplotlib, CSS
Tools and Framework : PowerBI, Flask ,Git/Github , Jupyter, IntelliJ, VScode, Docker, Collab,Tensorflow&Pytorch

EXTRA CURRICULAR AND ACHIEVEMENTS

- **Best Idea Theme Award –** EmpowHer Hackathon By **IITD**
- Tech Lead | Hult Prize | GTBIT
- **Ranked Corporal** in College **NCC** (6DBN)
