Education

- **Guru Gobind Singh Indraprastha University** — New Delhi
  Bachelor of Technology Artificial Intelligence & Data Science, 8.81 CGPA. — *2021-present*
- **Senior Secondary Education** — New Delhi
  CBSE, 81.8% — *2019 - 2020*
- **Secondary Education** — Varanasi
  CBSE, 92.8% — *2017-2018*

Skills

- **Programming Languages:** Python, SQL.
- **Libraries & Frameworks:** PyTorch, Pandas, NumPy.
- **AI & NLP:** Natural Language Processing, Retrieval Augmented Generation (RAG).
- **Soft Skills:** Team Leadership, Effective Communication, Creative Problem Solving.

Projects

- **MediScope: A Medicine Information Retrieval System** [Link]
  - Leveraged image recognition, Retrieval-Augmented Generation (RAG), and Large Language Models (LLMs) to create a detailed medicine information system.
  - Enabled searches based on medicine names, indications, or descriptions, retrieving semantically relevant data for downstream applications like LLM-powered assistants.
  - Designed to ensure safe, accurate, and accessible healthcare solutions.
- **Mapping ocean plastic pollution using Data Science and GIS** [Link]
  - Identified 1,591 dumpsites across India and created 3 km buffer zones to pinpoint 10 high-risk coastal dumpsites.
  - Created a risk-based scoring system (1 to 3) by analyzing 10 contributing factors to ocean plastic pollution.
  - Provided targeted solutions to prevent an estimated amount of 14 to 20 tons per year of plastic waste entering the sea from the dump site.
- **Mapping Groundwater in Delhi Using GIS** [Link]
  - Analyzed over 100+ monitoring wells across Delhi from Central Ground Water Board (CGWB) data to showcase groundwater depletion and usage trends in NCT Delhi.
  - Made use of NASA population density data, 2020 to highlight the interplay between GW depletion and population density.
  - Extracted the water supply data from the Indian government website to create a 3 layered visualization.

Achievements & Hackathons

- **Xylem Global Student Innovation Challenge, 2023 - Grand Prize Winner**
  - Selected as the grand prize winner from over 1,000+ submissions.
  - Collaborated with teammates from 3 different nations across the globe.
- **Nasa Space Apps Challenge, 2024 - Team Lead**
  - Successfully submitted a project visualizing the water scarcity problem in NCT Delhi.
  - Collaborated with an international teammate.
- **Xylem Global Student Innovation Challenge, 2022 - Team Lead**
  - Led a team of 4 to design an innovative solution to reduce CO2 emissions from Emmaboda Energi, Sweden.
  - Proposed an innovative 3-step solution to reduce 70% of the WTP's electricity consumption.

Volunteer Experience

- **UniteAid, Online Volunteer (2022) - Creative Director**
  - Directed a team of 6 to create Instagram campaigns on youth mental health awareness.
  - Instagram campaigns reached an audience of 2,000+ users.
  - Proposed an organization mascot to enhance engagement and appeal among teenagers.
