Vansh Gupta

Dedicated fourth-year Computer Science student with a passion for web development, machine learning, and Arduino projects. Eager to learn more about creating responsive web applications, developing predictive models, and building innovative hardware solutions. Proactive learner seeking insightful collaboration and networking opportunities. Arduino projects and machine learning enthusiast. Eager to leverage technical proficiency and creativity to contribute to impactful tech projects. Committed to staying current with emerging technologies and continuously expanding skill set

Experience

Web Development Intern, WorInWell
May 2023- August 2023

- Gained hands-on experience in designing, developing, and maintaining web applications.
- Worked on both front-end and back-end tasks, including creating responsive interfaces, developing APIs.
- Collaborated with designers and developers from WorInWell.
- Enhanced technical skills and applied classroom knowledge to real-world projects.

Machine Learning Intern, Fox Trading Solutions
August 2024 - October 2024

- Gained hands-on experience in practical machine learning workflows, data-driven decision-making, and cross-functional teamwork.
- Analyzed model performance metrics and fine-tuned parameters to optimize outcomes.
- Designed and trained predictive models using algorithms such as logistic regression and random forests, achieving high accuracy and reliability.

Educational Background

- **Bachelor of Technology, Artificial Intelligence**
  Guru Tegh Bahadur Institute of Technology, Delhi
  Aug 2021- July 2025

- **Secondary & Senior Secondary(X & XII)**
  Gitarattan Global School, Delhi
  April 2018 - March 2021

Projects

Food Delivery Website

- Developed and launched a food delivery platform in partnership with the Robotics club, IIT Guwahati.
- Led the conception, development and successful launch of a user-friendly food delivery website.

Object Detection

- Developed an object detection model for detecting bicycles on a street or road. Can also be applied for real-time application basis.

Doctor Appointment Dashboard

- Developed a doctor appointment dashboard as an internship project for WorInWell.
- Designed and implemented a responsive web interface for patients to book, reschedule, and cancel appointments easily.

Lead Scoring Case Study

- Developed a Lead Scoring Model during my internship at Fox Trading Solutions.
- Designed and implemented a machine learning model to analyze customer data and prioritize leads based on their likelihood to convert.

Skills

- Communication Skills
- HTML5
- CSS3
- JavaScript
- Python

Tools/Sofware

- Arduino IDE
- ROS 2 Humble Hawksbill
- Raspberry Pi

Languages

- English (Fluent)
- Hindi (Fluent)
