EXPERIENCE

Bharat Electronics Limited July 2024 - August 2024
Java Developer Trainee *Ghaziabad, Uttar Pradesh*

- Developed a comprehensive Employee Management System using JavaFX and MySQL, designed to handle various roles and tasks within a company.
- The system includes functionalities for login, role-based access, and management of work summaries. Key features include a detailed reporting interface, team management, and work summary tracking.

PROJECTS

Kanban Board

- Built a visual management tool used to represent work items, workflow, and the status of tasks in a project.
- It works by mapping individual work items to sticky notes placed into columns on a large board.
- Tech Stack - HTML,CSS,JavaScript

Excel Clone

- In this application we can create tables in a sheet and perform formatting like : Text color, fill color, alignment, cut, copy, paste
- We can add/remove sheets from our excel file and save it.
- Tech Stack - HTML,CSS,JavaScript

EXTRA-CURRICULAR ACTIVITIES

- Active volunteer in an NGO: Achal Welfare Foundation
