PROFILE

Skilled in machine learning, data analysis, and graphic design with strong Python expertise. Eager to learn new technologies and continuously improve, while applying creative solutions to complex problems. Experienced in transforming data into actionable insights and crafting engaging visual content. Passionate about delivering impactful results in a fast-paced, collaborative environment, driving innovation and contributing to meaningful projects.

EMPLOYMENT HISTORY

EDUCATION

Apr 2018 — Apr 2019

10th, Shri Shiv Narayan Sidheshwar Senior Secondary Public School

Gurgaon

Percentage - 92%

Apr 2020 — Apr 2021

12th, Shri Shiv Narayan Sidheshwar Senior Secondary Public School

Gurgaon

Percentage - 94%

Aug 2021 — Present

B.Tech - AIML, Guru Tegh bahadur institute of technology

New Delhi

Percentage - 87%

SKILLS

- Leadership
- Python
- Machine Learning
- Data Science
- Natural Language Processing
- MySQL
- Deep Learning
- Power BI
- Teamwork
- Interpersonal skills

EXPERIENCE

Aug 2024 — Sep 2024

IT intern, Airport Authority of India

New Delhi

As an IT Intern at the Airport Authority of India, I am working on a project related to the airport management system, focusing on real-time operations and data tracking. I am responsible for designing and documenting the project, leading to a comprehensive report for submission.

POSITION OF RESPONSIBILITY

Mar 2024 — Present

Treasurer, Core Member - IEEE GTBIT Student Branch

- Manage financial operations, budgeting, and resource allocation for various IEEE events and initiatives.
- Collaborate with the technical team to implement and maintain systems, including event registration platforms, website updates, and data management.
- Actively contribute to organizing technical workshops, hackathons, and student outreach programs.

Apr 2023 — Apr 2024

Creative Design Lead - IEEE GTBIT Student Branch

- Led the design team in conceptualizing and producing creative materials for various IEEE events, workshops, and conferences.
- Designed posters, banners, social media content, and event branding to enhance engagement and visibility.
- Managed the creative process from ideation to final execution, ensuring all design elements aligned with IEEE's brand identity and event themes.

PROJECTS

1. Sentiment Analysis of Hotel and Movie Reviews

Built a sentiment analysis model to classify hotel and movie reviews based on emotional tone

2. Handwritten Equation Solver using CNNs

Built a model to recognize and solve handwritten mathematical equations using Convolutional Neural Networks, predicting digits and operators to evaluate results.

3. Text Prediction Using LSTM

Designed an LSTM model for character-level text prediction. The project involved tokenizing a corpus, building a vocabulary, and training the model to generate text completions, including predicting the next characters for partial quotes.

COURSES

Aug 2023 — Oct 2023 **AI , SSDN Technologies Pvt. Ltd.**

Sep 2023 — Sep 2023 **Data Analysis with Python certification, IBM**

Sep 2023 — Oct 2023 **Python 101 for Data Science certification, IBM**

HONORS & AWARDS

May 2024 **Outstanding volunteer award - IEEE GTBIT Student Branch**

Recognized for exceptional dedication and contributions as a volunteer, demonstrating leadership, teamwork, and a commitment to the mission and activities of the IEEE GTBIT Student Branch.

Oct 2023 **IEEEXtreme 17.0 Ambassador - IEEEXTREME**

Selected as an ambassador for IEEE Xtreme 17.0, representing and promoting the global programming competition, coordinating participation, and facilitating communication between participants and the organizing committee.

Oct 2023 **Best Idea Theme Award - Empowher Hackathon by IIITD**

Awarded for presenting the most innovative and impactful project idea during the EmpowHer Hackathon organized by IIIT Delhi, showcasing creativity, problem-solving skills, and technical expertise.
