Education

- **Guru Tegh Bahadur Institute of Technology** — New Delhi
  Bachelor of Technology - Artificial Intelligence and Machine Learning; CGPA: 9.24 — *2021-2025*
- **Faith Academy Senior Secondary School** — New Delhi
  Class 12; PERCENTAGE: 95.4 — *2021*
- **Faith Academy Senior Secondary School** — New Delhi
  Class 10; PERCENTAGE: 96.4 — *2019*

Skills Summary

- **Languages**: JavaScript, Python, SQL, HTML, CSS, C++, PHP
- **Frameworks and Libraries**: React.js, Next.js, Laravel, TailwindCSS, Laravel, Node.js, Express.js, Material-UI, Shadcn-UI
- **Tools and Platforms**: Git, GitHub, Docker, MongoDB, MySQL, PostgresSQL, WordPress, MLflow, ZenML, Streamlit

Experience

- **SOFTWARE DEVELOPER INTERN - LAYER5**: Jul 2024 - Oct 2024
  1. Developed new functionalities for **'Meshery'** that improved user experience and streamlined operations on the cloud-native management platform; resulting in significant **growth within community interaction by over 20%**.
  2. Merged more than **25 pull requests** while maintaining stringent coding standards; spearheaded weekly cross-functional website improvement meetings that resulted in streamlined communication among developers and stakeholders alike.

- **FULL STACK DEVELOPER - PACECOURT**: Nov 2023 - Mar 2024
  Led the **front-end development** of the company's web platform, achieving a **40 percent performance improvement** and enhancing user experience with new **MERN stack features**. Optimized **WordPress components** for better load times and collaborated with cross-functional teams to align technical solutions with business goals.

Projects

- **MIRO NOTES:**:
  1. Built a **real-time collaborative whiteboard** with tools like text, sticky notes, and undo/redo.
  2. Implemented **room authentication, participant presence**, and responsive navigation.
- **CUSTOMER SATISFACTION PREDICTION:**:
  1. Developed an **ML pipeline** for predicting customer satisfaction using ZenML and MLflow.
  2. Deployed a **continuous training workflow** with seamless updates.
- **FINEDGE - FINANCIAL LITERACY PLATFORM**:
  1. Built a **gamified platform** with AI-driven lessons, XP system, and secure authentication.
  2. Engineered a scalable backend with **Drizzle ORM**, **NeonDB**, and deployed via Vercel.

Honors and Awards

- **Second Prize in Black Wing Hacks**: Developed an EdTech platform with advanced features such as **MCQ generation using the T5-Flan library**, **chat with PDF functionality**, and **real-time live chat support**, leveraging ML and the MERN Stack.
- **Second Prize in Blaze Quant**: Created an **LSTM-based algorithm** to predict Ethereum and Bitcoin prices, incorporating historical data analysis for accurate cryptocurrency price forecasting.
- **First Prize in HackMait 4.0 Hackathon**: Developed an EdTech platform integrating **AI-driven summarization**, **storage on Pinata (IPFS)**, and **smart contracts using Tezos** to ensure secure and efficient content delivery.
- **First Prize in BVICAM 4.0 Hackathon**: Built a mental health support platform with interactive features to promote user engagement and mental well-being.

Volunteer Experience

- **Web Developer at Google Developers Student Club**: Spearheaded the development of impactful web projects, conducted hands-on workshops, and mentored peers in modern web development technologies.
- **Member in Machine Learning Team, Google Developers Student Club**: Contributed to innovative machine learning projects, assisted in developing AI models, and collaborated on deploying solutions for real-world applications.

Certifications

- **Data Structures And Algorithms Using C++**: Coding Blocks.
- **Web Development Bootcamp**: Udemy
- **Generative AI Course with Langchain and Huggingface**: Udemy
