EDUCATION

Guru Tegh Bahadur Institute of Technology — 2022 –2025, Delhi
B.Tech, Artificial Intelligence and Data Science | CGPA- 7.5/10

Guru Tegh Bahadur Polytechnic Institute — 2019-2022, Delhi
Computer Engineering|Score-81.28%

NP Co-Ed Sr Sec School, Havlock Square — 2017-2018 Delhi, India
Xth | Score- 54.2%

SKILLS

Technical skills: Python | XML | JSON | HTML | Java | C++ | NumPy | SciPy | Pandas | Scikit-learn | BeautifulSoup | Selenium | Scrapy

Database skills: SQL | MongoDB

Data Visualization: Matplotlib | Seaborn | Plotly | Tableau

Other skills: Problem solving | Teamwork | Analytical thinking | Excel |Photoshop

Projects

Smart scout(Your AI shopping assistant)

- **About:** Developed an AI-powered shopping assistant integrating web scraping and natural language processing (NLP) to extract, analyze, and present real-time product insights. The chatbot enhances user engagement by providing interactive and data-driven responses.
- **Tools:** Selenium, BeautifulSoup, streamlit, Langchain, ollama
- **Skills:** Web scraping, NLP, Data analysis

Movie Genre Classification,Credit Card Detection,Spam SMS Detection

- **Tools of implementation :** Python,matplotlib,sklearn,pandas,numpy
- **Skills:**Data Handling & Processing,Data Visualization,Machine Learning

Found all the vulnerabilities in the Web Application

- **About:** Conduct a comprehensive security assessment to identify and analyze all vulnerabilities, security loopholes, and threats in a website.
- **Tools:** Burpsuit, Nmap, Kali linux, Accunetix
- **Skills:** Penetration testing, Price Tempering, Vulnerability Assessment, Information Gathering

Experience

CODSOFT | *Data Science Intern* | *4 Weeks* — Aug 2024
- Developed and implemented data visualization strategies using Matplotlib,plotly and Seaborn to provide actionable insights.
- Utilized Pandas for efficient data manipulation and NumPy for numerical computing.
- Applied machine learning algorithms for predictive analysis and model building.

CODSOFT | Machine Learning *Intern* | *4 Weeks* — Aug 2023
- Implemented data preprocessing, feature engineering, and model training using Python, Scikit-learn, Pandas, and NumPy.
- Improved model accuracy by fine-tuning hyperparameters and evaluating performance with precision, recall, and F1-score metrics.

All Soft Solutions| Penetration Tester *Intern* | *6 Weeks* April-May2022

- Conducted comprehensive security assessments to identify vulnerabilities, security loopholes, and potential threats in web applications.
- Performed penetration testing and vulnerability analysis using tools like Burp Suite, Nmap, and Kali Linux to enhance cybersecurity defenses.
- Analyzed and mitigated security risks, improving system resilience against cyber threats. Generated detailed security reports with risk assessments and recommendations for security enhancement.
