EXPERIENCE

Data Science Intern Jul 2024 - Aug 2024, Gurugram, India
EvolveMinds

- Developed and coded software programs, algorithms and automated processes to integrate, cleanse and evaluate dataset of over 100,000 data entries from multiple disparate sources which reduced task completion time by 90%, improving efficiency and productivity.

Software Developer Intern Feb 2022 - Apr 2022, Gurugram, India
SpringHouse

- Created an Android Application from the ground up with successful publication for efficient utilities management, purchase and distribution over 7 branches of SpringHouse.
- Ensured compatibility across various devices by testing applications on 10 screen sizes and resolutions ensuring consistent user experience and reducing defects by 75%.

Data Structures and Algorithm Mentor Nov 2021 - Dec 2021, Virtual
Pepcoding

- Taught 250+ students advanced course on Java data structures and algorithms. Helped the organization in creating new problems for Hackathons.

PROJECTS

CINE-GUIDE Oct 2023 - Dec 2023

- Built a Movie Recommendation Android Application that achieved 90% accuracy in suggesting movies based on user preferences, processing over 1,000,000 user ratings. Conducted extensive data preprocessing with Pandas and feature engineering with Scikit-learn to enhance model performance.
- Developed the application using Java and XML in Android Studio with TensorFlow, Keras for model building in Jupyter Notebook with the feature of real-time data retrieval and recommendation updates using a custom-built API, highlighting expertise in mobile app development.

HANDVOICE Jun 2023 - Sep 2023

- Engineered an Android application integrated with a custom machine learning model built using OpenCV, and Convolutional Neural Networks, designed to translate sign language into text. The model was trained on a dataset of over 1000 sign language images, achieving a 95% accuracy rate in real-time gesture recognition.
- The application featured efficient image processing with a response time of under 2 seconds, and a robust SQLite database that managed over 10,000 records.

EDUCATION

B.Tech in Artificial Intelligence and Data Science 2021 - 2025
Guru Tegh Bahadur Institute of Technology | New Delhi, Delhi
CGPA: 8.1

Class XII 2019 - 2021
Ramjas Public School (Day Boarding) | New Delhi, Delhi
Percentage: 91.4

SKILLS

- Java, Python, C, MySQL, SQL, NoSQL, Git, NumPy, Pandas,TensorFlow, Matplotlib, API integration, Flask, Web Application Development, Networking, Linux, Technical writing.
- Data Analysis, Data Mining, Data Cleaning, Machine Learning, Data Processing, Data Visualization, Natural Language Processing, Predictive Analytics, Communication.

ACHIEVEMENTS & AWARDS

- 500+ questions solved on LeetCode
- 5 star HackerRank
- 3 star CodeChef
