Prerna Puja

prernapujaoffficial07@gmail.com
https://github.com/Prerna077
https://www.linkedin.com/in/prerna-puja-5a10a522b/

Skills

- **Programming Languages**: Python, Java, MySQL, HTML, CSS, JavaScript,React
- **Tools and Frameworks:** Jupyter, Git/Github, Google Colab, Canva, Visual Studio
- **Soft Skills**: Leaderaship Team Management, Quick Learner, Content Writing, Adaptable ,Analytical

Work Experience

Prodigy InfoTech July 2024 – August 2024

Generative AI Intern

- Built and implemented advanced AI models and generative solutions to solve real-world problems.
- Improved machine learning algorithms to make them more accurate and efficient.
- Worked closely with teams to bring innovative AI solutions to life in practical applications.

StarkMart.ca, CANADA Remote

React Frontend Intern April 2024 - November2024

- Designed responsive e-commerce webpages using React.js, making the StarkMart platform more user-friendly and engaging.
- Integrated APIs to ensure smooth data flow and real-time updates for product listings and user interactions.
- Reviewed and optimized code to speed up page load times and enhance overall app performance.

CodSoft Company August 2023 - September2023

Artificial Intelligence Intern

- Enhanced machine learning workflows with better data preprocessing and augmentation techniques.
- Deployed AI models on cloud platforms like AWS using Docker for scalable and reliable performance.
- Analyzed model outputs and performance data to improve accuracy and speed.

Education

Guru Tegh Bahadur Institute of Technology, GGSIPU, New Delhi ***CGPA: 9.16/10*** November 2021-July 2025

BTech in Artificial Intelligence and Machine Learning
Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval, Image Processing, Deep Learning

Project Work

- **Image Recognition System:** Developed an AI-based image classification and object detection system using CNNs and TensorFlow/Keras.
- **Predictive Analysis:** Performed predictive analysis on large datasets using Python, machine learning algorithms, and Scikit-learn.
- **Inventory Management System:** Designed a dynamic inventory management system with Java and SQL, featuring stock tracking and automated notifications.
- **E-commerce Website:** Built a responsive e-commerce platform using React.js and Django, integrating payment gateways and user authentication.
- **Arduino Radar for Object Detection:** Created an IoT-based object detection system using Arduino, ultrasonic sensors, and servo motors with a graphical radar display.
- Y**OLO Object Detection:** Developed a real-time object detection model using YOLOv5 with Python, optimizing for accuracy and performance.

Certificates

- Machine Learning**, IIIT Allahabad**, 08/2022
- Data Science with Python, Verzeo, 05/2022
- Virtual, Tata and Forage, 08/2023
- Software Engineering Virtual, JP MORGAN CHASE AND CO., 08/2023
- Data Analytics and Visualization Virtual, Accenture, 08/2023
- Computer Vision 101,Infosys Springboard,02/2024
