PROJECTS

FUNCTIONAL YOUTUBE CLONE

- This project is built using React, Tailwind CSS and Rapid API.
- It uses hooks useContext, useEffect, useState.
- Its user friendly and has responsive UI.
- It can be used to search and stream YouTube videos.
- It also displays recommended videos we see on YouTube.

SNAKE GAME

- This project is built using Turtle library in Python implementing classes and objects.
- After each bite the length of the snake and its speed increases.
- It keeps track of user's high score.
- The game ends when the snake either crashes with itself or the wall.
