JASVINDER SINGH

21jasvindersingh@gmail.com | +91 8290541947 | Github | linkedin

Skills

- **Languages Known**: English, Hindi , Punjabi.
- **Programming Languages and Frameworks**: Python(Pandas, NumPy, Scikit-learn, keras, TensorFlow, PyTorch), SQL.
- **Data Analytics and Machine Learning**: Data Analysis, Exploratory Data Analysis (EDA), Data Visualization (Matplotlib, Seaborn, Ploty), Data Mining, Data Structures & Algorithms (DSA), Machine Learning(regression, classification, clustering), Deep Learning, NLP(Natural Language Processing,Time Series Analysis, Statistical Analysis, Feature Engineering, Model Evaluation, Hypothesis Testing, Recommender Systems, SQL, Power BI , MS Excel, Web Scraping.
- **Soft Skills:** Proficient Communication , Continuous Learning, Analytical Thinking, Problem Solving.

Relevent Coursework

- Data Science
- Machine Learning
- Deep Learning
- Natural Language Processing(NLP)
- Artificial Intelligence
- Time Series Analysis
- Data Visualization
- Business Intelligence & Analytics

Projects

Multiple Diseases Prediction System Using Machine Learning (click here)

- Created a machine learning system to predict heart, liver, and kidney diseases using Random Forest and SVM algorithms.
- Implemented data preprocessing, feature selection, and model evaluation for accurate predictions.
- Deployed the system on Streamlit, providing an interactive platform for real-time predictions to support early diagnosis.
- **Skills Utilized:** Data Cleaning | Exploratory Data Analysis (EDA)|Data Visualization| Model Evaluation |Model Training | Machine Learning Algorithms| Streamlit.

Chat With Multiple PDFs using LLMs (click here)

- Developed a Retrieval-Augmented Generation (RAG) model that extracts relevant content from multiple uploaded PDF documents and generates accurate answers using advanced NLP techniques and vector-based search.
- Implemented a Streamlit interface allowing users to upload documents, interact through question-answer queries, and view detailed conversation history.
- Integrated source document references to ensure traceability and accuracy in the generated responses.
- **Skills Utilized:** NLP | LLMs Integration | Streamlit |Vector Search

Walmart Sales Forecasting Using Time Series Analysis (click_here)

- Applied ARIMA and Moving Average models for sales forecasting in Walmart stores, performing time series analysis to identify trends and seasonality in historical sales data.
- Evaluated model performance using metrics like Mean Absolute Error (MAE) to optimize predictions and improve decision-making processes.
- **Skills Utilized:** Time Series Analysis| ARIMA Model| MovingAverage model | Forecasting| StatisticalAnalysis (ACF and PACF)

Olympic 2024 Power BI Dashboard: Visualizing Global Sporting Achievements (click_here)

- Developed an interactive Power BI dashboard for the 2024 Olympic Games, visualizing athlete performance, medal counts, and country comparisons in real time.
- Transformed raw data into engaging visuals, offering insights into historical trends and athlete profiles, using advanced visual storytelling techniques.
- **Skills Utilized:** Power BI | Data Visualization | EDA | Data Analysis | Data Modeling | Interactive Dashboard.

Education / Certifications

Guru Tegh Bahadur Institute Of Technology (G.G.S.I.P.U.) Nov. 2021- 2025

- B.Tech in Artificial Intelligence and Data Science | CGPA (till 6 sem):- **8.747**

Disha Delphi Global Sr. School | Class 12 Board (R.B.S.E) ,Science Stream (June, 2019

- Total Percentage : 71.20 %, Subjects : Physics, Chemistry, Maths, English, Hindi

MB International School | Class10 Board (C.B.S.E.) (June, 2017)

- Cumulative GPA: 8.8/10.0

Data Scientist Industrial Training & Internship Program

- DevTown. (May 2023 - August 2023)
